Copy of letter No. C/52 dated the 16th September 1912 from the Sub Assistant Engineer in charge of Forest Surveys in Mysore, to the Conservator of Forests in Mysore, Bangalore.

As the rooms in the down storey of the Public Office Buildings, Cubbon Park, which formed Offices of the Military Secretary to His Highness the Maharaja, (are reported to be vacated shortly) I have the honour to request that you will be so good as to use your best endeavours to secure the same for the Forest Survey Office.

The present place is out of the city Municipal limits and is too far from the Treasury and the Conservator's Office. The owner also is pressing me to vacate it as soon as possible as he has prospects of a higher rent. He has been asked to give me sufficient time.

2. The Revenue and General Secretary may kindly be addressed on the matter with as little delay as possible, lest they should be occupied by some other offices and the chances of securing a central place to suit the convenience of the Officials be lost.

No. 3.

Sir,

I have the honour to inform you that the introduction of the new copying paper in all the Courts of the Province has necessitated the purchase of new machinery for the purpose. The present accommodation in the Stamp Manufactory is not enough to locate these machines with the large stock of papers etc.

2. I am given to understand that owing to the removal of the office of the Military Secretary from the Secretariat Buildings, the rooms occupied by that office are vacant and I propose that the room next to the Store room of the Manufactory, now occupied by the Muzrai Superintendent's office be ordered to be given over to the Manufactory and the rooms vacated by the Military Secretary's office be given to that Department instead. I beg that early orders may be passed as the new machinery is expected by the end of the month.

3. Further, I request that Government will re-consider their order No. Fl.1365/S.R.212-09-6 dated 13th September 1910 stating that there is no neccessity for introducing an Electric Light Installation into the Manufactory, and sanction the same, as great inconvenience is often felt on cloudy days, owing to the rooms getting dark very early in the day and oil lamps have to be used, greatly to the danger of the stock.

DIARY NO. 2074

PUBLIC WORKS SECRETARIAT,

Bangalore, 30th September 1912

153-12

My dear Sir,

With reference to our conversation this afternoon, I send, herewith, a tracing of the ground plan of the Public Offices here.

It would be well if the Engineer-in-Chief for Railway Construction is given all the 4 rooms vacated by the Military Secretary.

An alternative suggestion is to shift the record racks from rooms No. 44 and 45 and place them in 29 and 30, the occupants of the latter being allowed to use rooms No. 2 to 4.

These are mere suggestions. You will doubtless obtain the Dewan's orders before

deciding

deciding what use to make of the vacant rooms.

Yours sincerely,

Office of the Superintendent,
Mysore Revenue Survey,
Dated Bangalore 30th September
1912.

My dear Sir,

I beg to bring to your notice that the recent heavy rains ha caused the water of the Sampigehalli Tank to rush to the very walls of the building, where my office is at present located. In fact, the whole compound up to the full height of the basement is under water. If more rains come in, as is likely to be the case, I fear that the water will get into the building itself and damage the whole of the office records. I am therefore very much concerned about it. - Some arrangement should be made without any loss of time to shift at least a portion of the office if it becomes necessary. So far as I am aware there is no convenient building just at present to which my office can be temporarily shifted. The rooms in the Public Office buildings lately occupied by the Military Secretary and his office, are now available, but though they are too small to locate a big office like the Survey Superintendent's, yet in case

case of necessity I may have a portion of my office, about which I am most concerned, removed to the said premises, Of course this arrangement will only be for such time as is necessary for the water to recede and to make the building habitable again. I therefore request that you will be kindly pleased to allow me to occupy the rooms referred to above in case of dire necessity.

With best regards.

I remain,

Yours Sincerely,

My dear Sir,

I beg to represent that the several sections of my office which are located in the ground floor of the Public Offices Buildings are very much cramped for want of space. Men have to work in dark corners where there is no sufficient light and the seats have to be arranged so closely that sufficient room is not available to keep neatly arranged all papers and registers which the men require for constant reference. Much inconvenience and loss of time thus result and the health and eyesight of the men suffer a great deal.

Under these circumstances, may I request the favour of your kindly allowing my office to occupy the rooms recently vacated by the Military Secretary below the Chief Court? Two small rooms and two larger rooms are available and they will just meet my wants. If necessary, I shall be glad to explain

the

the situation more fully at an interview.

The favour of an early reply is requested.

My dear Sir,

Mr. Bell has inspected the 4 rooms (Nos.1 to 4 in the accompanying tracing) in the South Wing of the ground floor of the Public Offices and thinks they will do very well for the Railway Secretariat. He at the same time expressed an opinion that it would greatly facilitate work if they were transferred at as early a date as may be found convenient.

I request therefore that necessary orders may be kindly issued in the matter to the Secretary, General and Revenue Departments. The rooms now occupied by the Railway Secretariat will be vacated as soon as those now under reference are made available.

My dear Sir,

I have been given to understand that the two rooms now occupied by the Railway Secretariat will soon be vacated on the transfer of that office to another part of the Public Office buildings where accommodation has been found for it and I hasten to request that these rooms may kindly be placed at my disposal. They adjoin the P.W. and Railway branch of my office and are therefore best situated for accommodating the additional Railway Accounts establishment recently sanctioned by Government. It is not possible to find for this establishment any room in the Public Works Accounts office and the provision of additional accommodation is therefore necessary and urgent. The two rooms for which I now apply are from their position very well suited for the purpose and I request the favour of orders being

Dear Mr. Srinivasaiengar,

With reference to your D. O. letter No.5303/G.M.153-12-23 dated the 4th instant, I write to inform you that the room formerly occupied by this office still contains all our old records which we have to remove to our new rooms after they are fitted up with record racks.

I have been constantly urging the Executive Engineer, Bangalore Division, to expedite the work. A copy of the letter I have sent him to-day is enclosed for your information.

Almost all our records in the old room are in wooden record galleries. If they can be permitted to remain there for a few days more, I think we can clear the floor of the room and let you have the same. Of course, there will be a slight disturbance when the records have to be

removed but this may be arranged for with the least possible interference with office work.

If this suggestion meets with your approval, I can arrange for the rooms to be handed over to the Registrar by the end of this week.

I send herewith copy of a D.O. letter received this day from the Secretary to Government, General and Revenue Departments from which you will see that the room formerly occupied by this Secretariat is immediately required for other purposes.

It seems that the Contractor who is putting up the record racks in our new rooms had suggested to the Manager of this office that he would complete the work in the lower portion of the room where racks are now being put up and hand over the same to us, the rest of the work being completed after the ~~2nd~~ second room was fitted up. As work in the lower portion is almost completed, I shall be obliged if you will kindly ask the Contractor to put in the finishing strokes and hand it over to us in a day or two, the rest of the work being taken up later on. This would enabl the office to remove the records from the old room and hand it over to the General and Revenue Secretariat.

I request the favour of an early reply.
